Guide to Quarantine

August 29 - September 12, 2020

FALL 2020

We recognize that this will not be easy. However, there is a real opportunity to connect with your roommate(s) and settle into your new home together. The goal is to ensure that you are healthy while protecting others from exposure to illness.

What is Quarantine?

- Students must not be in public or otherwise leave the quarters that they have identified as suitable for their quarantine.
- Food must be delivered to the student's quarters.
- Students are NOT to visit with other students during the 14-day quarantine.
- All students will be allowed to retrieve packages, utilize laundry facilities, and throw away garbage. A mask must be worn at all times when a student leaves their immediate living quarters.

For additional information, please see the New York Department of Health Guidance.
